

Bradford Civic Society is being created to address the needs of the community, to have input into urban regeneration in Bradford, to have a say on planning issues, to focus efforts to develop a high quality built environment and to champion the remarkable heritage of Bradford's past.

Bradford needs a group of people who are passionate about their surroundings and want to change them for the better.

Working together with existing groups and agencies in the public, private and voluntary sectors we want to develop solutions to environmental problems, set high standards of design and sustainability and safeguard Bradford's important heritage.

We want to define what makes Bradford distinct and celebrate its spirit.

## mission statement

'The Bradford Civic Society is a non-profit making organisation devoted to celebrating the city's past, honouring the present, preserving and promoting the uniqueness of Bradford's natural and man-made environment and its neighbouring environs'.

If you can support these ideas, join Bradford Civic Society. Membership is open to everyone who is interested in the future of the city. BCS aims to provide a collective voice for everyone who cares about Bradford. We are an independent, voluntary organisation which all Bradford citizens are welcome to join.
